A cost-effective service for Asia-Pacific and beyond...

Slash your printing costs

Printing and distribution of promotional materials eats away a large portion of international education marketing budgets, funds that we would all prefer to use elsewhere, on activities or staffing. Offshore Education Services prints, stores, packs and distributes education brochures from its base in Thailand. Brochures are stored in our facilities in Bangkok and sent to wherever you need them, whenever you need them. **The results are a saving of up to 60% on printing and distribution costs.**

OES is Australian-owned by experienced international education marketing professionals. We understand how timely delivery and cost-effective printing impacts on your bottom line. By storing your brochures in Thailand where they are printed, we can dispatch them to representative offices, agents, partner institutions and exhibitions faster and cheaper.

Free up staff, reduce delivery times, save on marketing budgets and dispense with expensive storage space.
